SECU WATCHER for CCTV

Video File Encryption 01

System Introduction

Secuwatcher For CCTV Video Encryption is a CCTV video security storage system (encryption module) for personal privacy protection based on the Personal Information Protection Act.

- The personal privacy protection based on the privacy Act.
- Privacy information security through CCTV information encryption
- Available to be decoded through the approval from administrator

1등급 GOOD Software

System Feature

Personal Privacy Protection

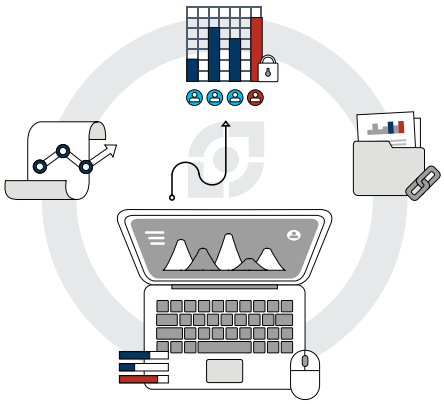
- Set user password and set folder to store CCTV images for encryption
- Detect the newly created CCTV image file in the folder you set, encrypt and save it
- Available to be decoded of encrypted CCTV video files
- To realize encryption and decoding by using encryption algorithm lea - 128 which is light - weight encryption algorithm

Video file export and decoding

- Request to decoding using exclusive tool (Application)
- Available to use various statistic data and chart
- Available to manage systematic image decoding process through the management server (View, Export, Approval)
- One-Stop management all process (Join system, applying, approval, view, export and etc)
- Available to create and check Log that performance and configuration folder route for Log-in/out, reset password, encryption/decoding

The effect of introduction

- Perfect Security of personal information (Video) in CCTV based on Personal Information Protection Act.
- Available to establish an additional encryption security system using encryption of real video file, Without modification of the installed system
- Privacy information security through CCTV information encryption



SECU WATCHER for CCTV

Video File Encryption 02

Video Data Real-Time Encryption

The Secuwatcher for CCTV video encryption module encrypts the video files stored by CCTV in real time to prevent any damage in case of personal information leakage in the event of a video leakage accident, and supports the NIS-certified light encryption module for high-speed real-time encryption.
