

ASPA

Asian Science Park Association

A Leading Institution for Knowledge Sharing and Technology Exchange in Asia

The problems with free and protective trade, market competition, race, religion and cultural differences rest upon us. They keep us from having the Asian community.

ASPA overcomes all of these obstacles, leads the network of industrial technology and contributes to building the Asian community.

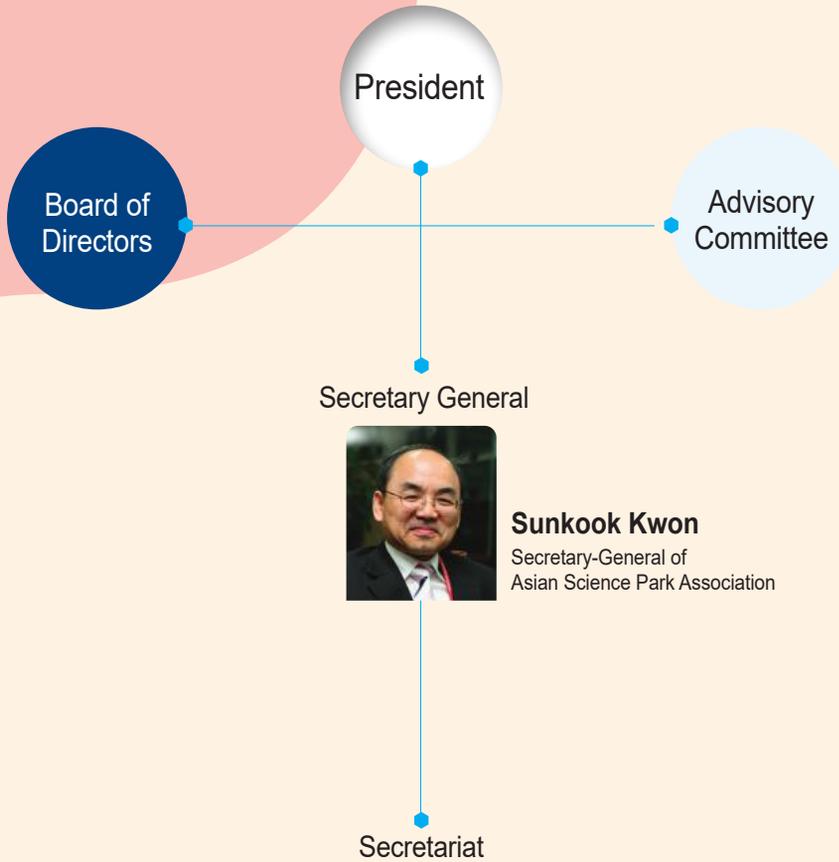

Asian Science Park Association

ASPAA is an international nongovernmental organization established in Japan in 1997 for the purpose of accomplishing the joint development in the fields of scientific technology, industry and economy in the Asian region.

ASPAA has been trying to present a new paradigm for Asian industry and build economic consensus in Asia by bringing innovative organizations, companies and individuals together that make contributions to industrial and economic development in their societies.

The efforts to achieve these goals include holding international events which can boost exchanges of experience, knowledge and various projects and share industrial and economic resources through the expanding network.

Activities

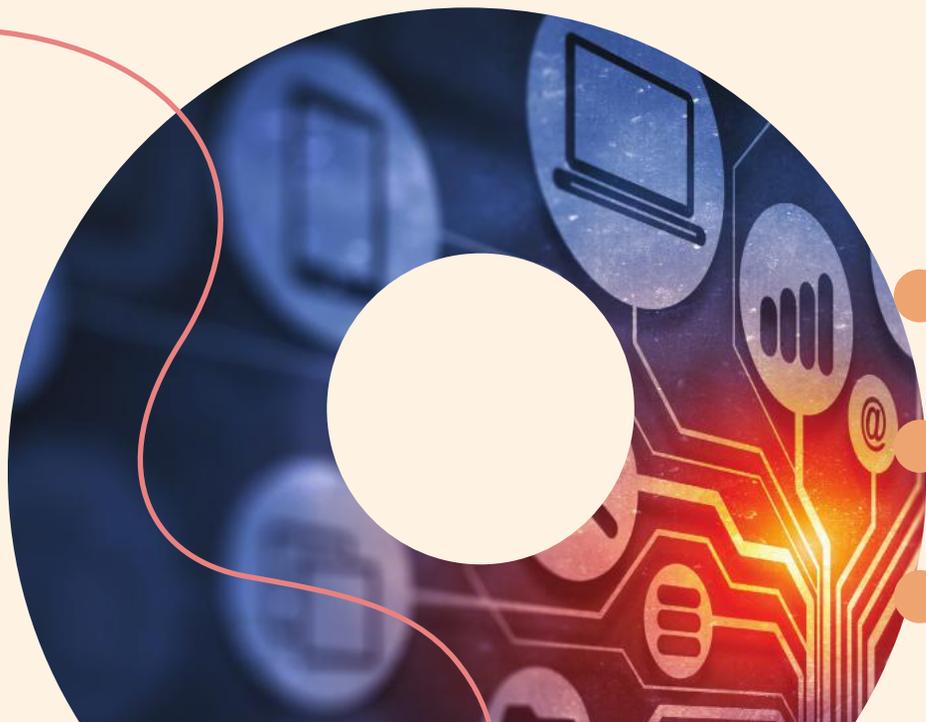

Conference & Exhibition

- Holding Annual Conference, LEADERS Meeting, ASPA Awards, Business Meeting ASIA and other events
- Biennially holding SCIENCEPARK INNOFAIR, which aims to accomplish the global platform between STPs in various regions for the sustainable cooperation and exchange
- Interchanging valuable knowledge among STPs, regional innovative organizations, enterprises, universities and governments
- Exchanging the professional technology in the fields of technology and industry
- Promoting exhibitions with the specific subjects

Education & Seminar

- Operating long and short term education programs for the staff in charge of practical affairs in STPs.
- Operating tour programs to experience outstanding STPs in the world

Cyber ASPA & Publication

- Distributing ASPA Webzine (monthly publication)
- Providing innovative resources including technology, know-how and the latest information of science and technology in Asia
- Establishing the system for online cooperation of innovative organizations

Research

- Searching the ground breaking development strategies with regional specialty
- Research on Asian growth models

Annual Conference

As the biggest event of ASPA, it is held annually in the Asian region.

The people involved in the innovative organizations such as STPs, research parks, business incubation centers, universities, academic institutions and start-up companies in Asia have participated in the conference for the past 24 years.

Through the ASPA Annual Conference, you can not only catch the latest trend of science and technology, but also be provided opportunities to get the innovative regional know-how and broaden the social networking in Asia.

When

Between October and November every year

LEADERS Meeting

As the closed meeting with the representatives of ASPA organization members and the related organizations, ASPA LEADERS Meeting was held in 2006 for the first time to share the innovative knowledge, successful case and experiences of advanced STPs with new emerging STPs in Asia. It also provides ASPA members with opportunities to strengthen the network and discuss joint projects.

When

(Irregularly held) Between April and May

Business Meeting ASIA

Business Meeting Asia, which is held two to three times a year, aimed at seeking and linking buyers with ASPA's company members who are interested in technology exchange, cooperative R&D, market expansion, and network building, etc.

ASPA Awards

Every year, outstanding enterprises with practice management skill, brilliant ideas and technologies are nominated by ASPA organization members.

The awarded companies have various opportunities to publicize their companies and products through ASPA activities and publications.

Benefits of Winner

- To have a chance to promote the company product and technology in front of the people involved in STPs, research institutes and other related organizations
- To make the headlines of ASPA Webzine distributed in the Asian regions
- To support the winners to participate in the business matching event which is held in several Asian countries
- To get the opportunity to join the free ASPA membership for the first year

SCIENCEPARK INNOFAIR

A biennial event SCIENCEPARK INNOFAIR (SPIF) is a new regional cooperation activity of ASPA. It was firstly held in EXCO, Daegu, Korea and online from October 12 to 13, 2021 under the theme of 'The Role and Cooperation of Science & Technology Parks for Regional Development'.

SPIF 2021 consisted of various programs such as talk concert, experts forum, online exhibition on metaverse platform, business meeting, etc. which enabled participants to exchange their experience and knowledge. The 14th ASPA LEADERS Meeting was also held in conjunction with SPIF 2021.

Major Programs of SPIF

Sustainable Regional Cooperation

Sciencepark Forum

- Sharing experience and knowledge of regional cooperation between STPs
- Discussion on STPs' role in supporting technical development for local companies and fostering companies

LEADERS Round Table Meeting

- Experts meeting to discuss 'Science & Technology Parks, Industry, Universities and Government in the Future'

Roles for Regional Development

Business Technology Development Strategy of Companies in Asia

- Presentation by company participants for sharing growth cases and technology development strategies

Exhibition and Business Meeting

- Supporting growing start-ups and promising venture companies to expand the business into the overseas market by providing opportunities to participate in exhibition and business matching

Contribution to Local Community

Business Environment in Asia

- Presentation by experts from STPs in various regions on market trends, specialized industry, strategies for overseas companies to go into the local markets

Innovation Talk to You

- Talk concert to inspire creative thinking and global mindset of the citizens, students and startups.

Education & Seminar

We have long and short term educational programs to cultivate professional manpower and arrange the tour programs to have ASPA members experience the operative systems of the outstanding STPs in the world.

Research & Consulting

ASPA researches and provides the information on Science and Technology Parks in Asian region, and conducts consulting service on demand. ASPA works together with other STPs to provide customized consulting & research.

Publication

Web magazine which is monthly published for providing ASPA and ASPA members' latest news.

Webzine Vol.231
