

# The 6<sup>th</sup> Filtration Conference

"Filtration in Petrochemical Industries"

# Call For Papers

Filtration in Petrochemical Industries

## Research Paper Themes:

- Optimization and Enhancement of Filtration
- Systems in Petrochemical Industries and Advanced Technologies
- Principles of Inspection and Performance Evaluation of Filtration Systems
- Innovative Approaches in the Design and Adaptation of Filtration Systems for Petrochemical Processes
- The Role of Filtration in Reducing Environmental Pollutants (Water, Air, and Sustainable Waste Management)
- Process Simulation and Data Analysis Using Advanced Tools and the Role of Artificial Intelligence
- Economic Analysis of Filtration Systems and Their Impact on Efficiency, Energy Cost Reduction, and Operational Costs
- Identification of Challenges and Issues in the Petrochemical Industry in the Field of Filtration and Proposal of Practical Solutions

**Paper Submission Deadline:**

**February 28, 2025**

### Conference Secretariat:

Isfahan Science and Technology  
Town, Isfahan University of  
Technology Boulevard, Isfahan
