Our Services for Companies

Companies benefit from modern office spaces, professional building management, and a wide range of quality services, including 24/7 security, high-speed internet, an open kitchen, meeting rooms of various sizes, quiet workspaces, training and conference halls, password-protected lockers, regular cleaning, professional reception, and technical maintenance support.

Ostim Technopark manages admission processes to ensure that companies benefit from the incentives provided by the Ministry of Industry and Technology under Law No. 4691. It also supports companies in meeting legal requirements and in effectively carrying out R&D, software development, design, and innovation activities, in accordance with clear application and evaluation criteria.

To strengthen the innovation and entrepreneurship ecosystem, Ostim Technopark offers a comprehensive portfolio of value-added services, including the PROTA Technology Manufacturing Center, INNO:14 Acceleration Center, OSTİM INP, INNOMentor, OFİM and Turuncu Incubation Centers, as well as the OSTİM Venture Capital Investment Fund.

Value-added Services for Entrepreneurs

We support entrepreneurs at every step of their journey with R&D, business development, funding, and prototyping to ensure their success.

PROTA Technology Manufacturing Center

PROTA is a modern Technology Manufacturing Center that fosters high tech and value-added technologies by enabling SMEs and entrepreneurs to develop and realize their ideas and products through design, prototyping, and mentoring. With its advanced machinery park and comprehensive Makerspace, PROTA provides cutting-edge prototyping services to support innovation and entrepreneurship.

OSTİM Investment Network Platform

OSTİM INP is an angel investment network accredited by the Ministry of Treasury and Finance, bringing together early-stage and high-tech startups with experienced investors. By offering tax incentives and allowing investors to deduct their investments from income taxes, it supports sustainable collaborations between investors and entrepreneurs.

INNOMentor

The INNOMentor Program offers mentorship services to entrepreneurs to enhance their R&D and innovation capabilities. It helps entrepreneurs increase their commercial maturity levels and establish a strong presence in the market, while also supporting their development by matching them with experts.

INNO:14 Acceleration Center

INNO:14 Acceleration Center offers a dynamic ecosystem that, with its open innovation culture, enables entrepreneurs to rapidly develop and scale their business ideas. Through industry and investor engagements, as well as national and international networks, it provides comprehensive support services to help entrepreneurs respond to market needs faster and more effectively.

OFİM and Turuncu Incubation Center

The OFİM and Turuncu Incubation Center provides entrepreneurs with opportunities to develop and grow new business ideas. Entrepreneurs here not only improve their businesses but also grow rapidly by being part of a supportive network.

OSTİM GSYF Venture Capital Fund

OSTİM GSYF Venture Capital Fund operates as a platform that makes capital investments in early-stage entrepreneurs and provides knowledge transfer. Accredited by the Ministry of Treasury and Finance of the Republic of Turkey in 2023, this platform encourages individual investors to offer financial support to entrepreneurs and share their experiences.
